

**Removes concrete,
cleans and waxes.
Safe to use on entire Truck
100% Acid-free**

RM-CONCRETE TRUCK WASH

Product

Synpro RM-Concrete Truck Wash is a proprietary synthetic non-acid blend that is used as a daily maintenance wash and wax for Ready Mixed concrete trucks. It can be used on the entire truck without causing damage to the paint, glass, brake lines or electrical.

Synpro RM-Concrete Truck Wash will safely remove light concrete build up associated with the normal daily functions of concrete trucks and pumps.

Regular use will provide a film that will serve as an anti-stick application that will over time reduce the dilution ratio which lead to a cost saving.

Synpro RM-Concrete Truck Wash can also be used on other concrete equipment like mixers, wheel barrows, concrete saws, and mobile mixers.

Advantages

- Synpro RM-Concrete Truck Wash provides unmatched benefits for the Ready Mix Concrete Industry
- . 100% Biodegradable
 - . Patented Technology
 - . Powerful formulation
 - . Non-Regulated by D.O.T.
