

**The Most Powerful Dissolver  
for Use in the Hopper Area!**

**Remove Concrete Build up  
Ready Mix Trucks, Concrete  
Pumpers and Equipment.  
100% Acid-free**

# HOPPER BLASTER

## Product

Synpro Hopper Blaster is an acid-free, biodegradable, proprietary formula that will remove hardened concrete from Ready Mixed Concrete Trucks, Pumps and equipment.

Synpro Hopper Blaster contains no Hydrochloric, Glycolic, Phosphoric nor Sulfuric Acid.

With a potency that outperforms commonly used acids like muriatic, Synpro Hopper Blaster will still not cause damage to equipment or paint nor will it corrode metal parts or electrical wiring.

## Easy to use

Dilute Hopper Blaster to preferred ratio, wet Truck or Equipment, apply solution, let sit and saturate for about 10 mins agitate and rinse with clean water.

## Advantages

Synpro Hopper Blaster provides numerous benefits to the user:

- . 100% Biodegradable
- . Patented Technology
- . Powerful formulation that works
- . Non-Regulated by D.O.T.
- . Meets USDA authorization code A1-A4,A7,A8,C1,G6,G7
- . Non-Fuming
- . Non-Skin Irritant
- . Non-Corrosive
- . Triple Zero HMIS score
- . FDA approved as safe -GRAS

## Benefits

Synpro Hopper Blaster offers numerous advantages to the end user:

- . Powerful technology that has proven effective on the toughest cleaning assignments
- . Eliminate the need to use harsh chemicals
- . Reduce labor cost
- . Increase life of equipment
- . Provide a safer work condition

## Applications

With its proven effectiveness and versatility, Synpro Hopper Blaster has attracted industry leaders and is used across a number of industries with a variety of uses:

- . Remove Excess mortar
- . Remove Concrete build-up from concrete tools and equipment
- . Cleans metal scaffolds
- . Cleans excess concrete on Concrete Trucks

## Dilution and Coverage

Coverage is dependent on the determined dilution ratio and we recommend you test for the most effective dilution ratio and suggest

Heavy: Use undiluted  
Moderate: 1:1  
Light Moderate: 1:2
